JAVIER SILVESTRI ALFREDO
SOFTWARE DEVELOPER

+1 year of experience as a Software Developer in building dynamic Web and Mobile applications. Integrated into both Front-End and Back-End teams, specializing in the creation of intuitive and user-friendly interfaces.

MOST RECENT WORK EXPERIENCE

Software Developer at RunaID IT
April 2022 - August 2023 [Client-Focused, B2C]

RESPONSIBILITIES
- Stepped into the early stages of a project, and efficiently propelled it forward with agile development practices.
- Played a pivotal role in translating designer specifications into functional screens. Applied advanced principles of object-oriented programming to elevate code quality and maintainability.
- Contributed to both front-end and API development for a diverse range of web and mobile applications.

KEY ACCOMPLISHMENTS
- Rapidly onboarded to Flutter and Dart through an immersive course, swiftly transitioning to a Greenfield project, showcasing immediate application of acquired skills.
- Transitioned between diverse projects, showcasing agile adaptability and delivering successful outcomes.

MOST RECENT PROJECTS

CHEFCO PASTAS - Pasta Dishes Platform [chefcopastas.netlify.app/]
- Developed a React.js-based platform featuring Framer Motion for seamless transitions and animations.
- Integrated WhatsApp services for communication and streamlined the shopping experience with a dynamic cart system, offering potential discounts based on selected dishes.

EUGENIA FOTOGRAFIA - Photography Portfolio [eugefotografia.netlify.app/]
- Crafted a visually engaging gallery and portfolio using React.js and Framer Motion to showcase photography work.

PERSONAL PORTFOLIO - My own website [javiersilvestri.vercel.app/]
- Created a high-performance personal portfolio using the Astro Framework, featuring native browser transition animations.
- Established a technology-focused blog within the portfolio to share insights.
